

PLATS OF SURVEY IN GREEN COUNTY

DISCLAIMER:

This basic index is only by PLSS Section-Town-Range. This information was retrieved from the paper index books kept by Register of Deeds. The Register of Deeds index often includes additional information that can be used to further "narrow down" the property location. Errors in this digital index may exist from the transcription process, including accidentally omitted records. It is recommended that this digital index be used as an initial reference only, and prior to finalization of one's work, findings be checked against the Register of Deeds paper index and the actual plats of survey.

It is strongly recommended that one review neighboring sections in case a plat of survey is somehow only indexed for one when it straddles multiple.

If a record appears to contain a "typo" (or similar), please report it to Green County Land Records.

This digital index is only maintained through Volume 16, Page 12. Plats of survey occurring after are not contained in this index.

The index only lists the first page of a plat of survey (PgBeg), with no PgEnd indicated. Often, plats of survey consist of multiple pages.

Although this digital index reflects some purposeful "sorting," it is possible that errors exist in that sorting, and as with all aspects of this index, the disclaimer paragraph below applies.
