LEGEND:

- Cast Aluminum monument found.
- Cast Aluminum monument found (broken at the upper shear point).
- 3/4" solid round iron rod found.
- 3/4" solid round iron rod found.
- 3/4" X 24" solid round iron rod set, weighing 1.50 lbs per lined ft.
- Existing fence line.

SCALE: 1" = 200'

NOTES:

1. Bearings and distances shown in parenthesis, indicates recorded as data.
2. Bearings are referenced to the West line of the NW 1/4 of Section 20, which bears N0°34'23"W, according to the Green County Coordinate System, as defined by the Wisconsin Department of Transportation and determined by GPS observation, 2007 Adjustment.
3. Certified Survey Map No. 1179 shows the platted location of Legler Valley Road to be located along the western side of the survey. When I performed the work on Certified Survey Map No. 4283, I accepted the location of Legler Valley Road per the platted location by Mr. Talarczyk. In conducting the research for this project, I could not find any public record depicting the location, width or ending point for Legler Valley Road. I researched the current abstract for this property, contacted the Town of New Glarus and I also had Ekum Abstract conduct a search of the public record and no records were found. The Town of New Glarus said that they just had always assumed it went to the end of the gravel roadway. I contacted Mr. Phillips and told him that I would not be able to locate the end of the roadway at this time, as there was no public record found and that he should contact the township to get this worked out. Mr. Phillips said that he would take care of working out some sort of an agreement with the Town of New Glarus and that I could finalize this survey and only show the exterior boundaries of his parcel.
